WAVEFORM

# PROJECT 1

Drawing inspiration from the depths of the ocean and the destruction caused by textile pollution, Waveform merges futuristic silhouettes with raw, textured finishes. The collection reflects a world where decay fuels creation.

## PROJECT 2

Cate Du Matin captures the quiet intimacy of a Parisian morning. The collection is inspired by slow moments-sitting by a window with warm pastries, the golden light spilling over roof-tops, and the effortless beauty of the day just beginning.

Soft textures, relaxed tailoring, and airy fabrics echo the feeling of calm mornings, where style is understated but intentional.

Each piece invites you to move through the world with quiet confidence, blending simplicity with subtle so-phistication. This is fashion for those who find beauty in the everyday.
